WHO IS ON THIS LIST?

The list of businesses that are part of the wedding industry is endless. To make a list that includes every Perth love biz would perhaps further boggle the planning mind! So if you are looking for something in particular, let me know and I'll help you on your mission!

But this list of services is for the big stuff - the part of the industry that is swamped with unique options.

So let me shrink the massive pile for you to give you a hand. These are people I know will have your best interests at heart.

....And they are all a bloody vibe!

THIS LIST

PHOTOGRAPHY

Genuine and candid photography rocks at weddings because it captures all those real, unplanned moments that make your heart skip a beat. It's all about the genuine emotions, the belly laughs, the happy tears, and the crazy dance moves. Forget stiff poses and forced smiles, candid photography keeps it real, showcasing the natural beauty and personalities of everyone involved.

These photos tell the true story of your big day, preserving the memories and bringing back all those feels whenever you look at them. They're like a timeless treasure that will make you smile, laugh, and maybe even shed a tear or two. I have listed some varied pricing, but when it comes to 'you get what you pay for' it has never been truer of any investment than wedding photos and video.

My Tip: Have some shot types or setups that you really want noted for your photographer. Eg, Need to get a shot with Dad at the front door because that is where you stood for a pic with him for every first day of school or must get a picture of the Maid of Honour and Bride holding hands. You think you will remember these things - but the day moves too fast, and these special pauses can get missed.

VIDEOGRAPHY

Videography is like the superhero of wedding memories, capturing all the action and emotions in motion. It adds an extra layer of magic to your special day. While photos freeze those incredible moments, videos bring them to life, allowing you to relive the laughter, the tears, and the crazy dance floor shenanigans.

With videography, you can hear the vows, the speeches, and the hilarious moments that you might have missed in the whirlwind of the day. It's like having a time machine that takes you back to that joy-filled celebration whenever you hit play. Is it worth the money? In my opinion, yes! The chance to hit rewind on the best day of your life sells itself!

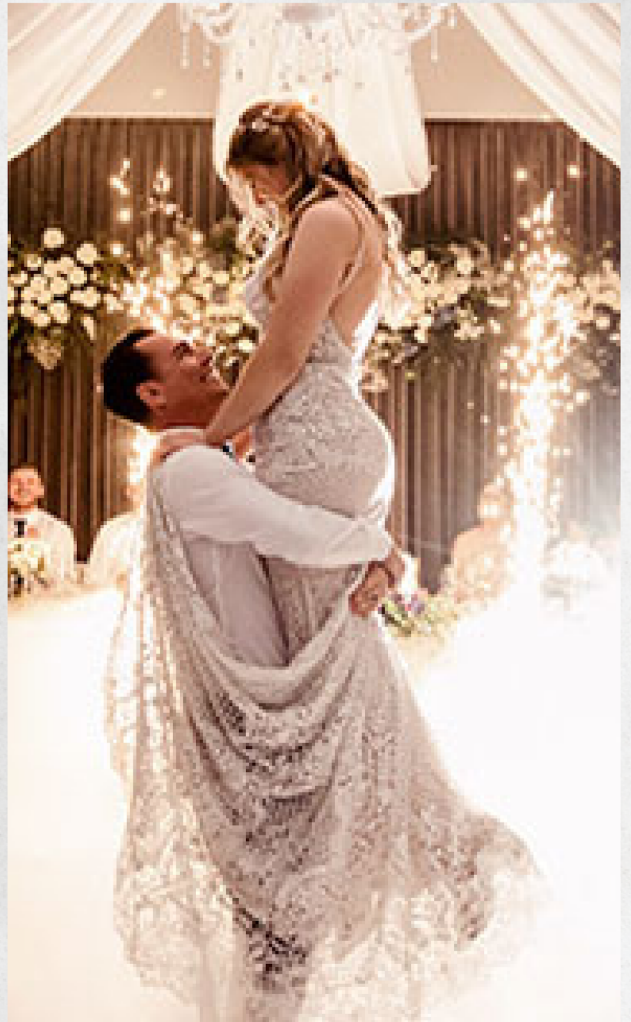

My Tip: Ask them to make some time to get the cutaways of things you don't see on the day. Like your Mum talking with your bridesmaids about their excitement, or your brother trying to pack the boot with your DIY styling. It seems like nothing, but it is the BTS of the day that you miss and is really heartwarming and REAL.

DJ'S & LIVE MUSIC

Selecting the perfect band or acoustic musician for your wedding is like finding the musical magic that sets the mood and captures your love story. They create an enchanting atmosphere, playing melodies that resonate with you and your guests. Whether it's soulful tunes or upbeat rhythms, their music becomes the voice that speaks volumes. So, choose the artists who understand your style! This is a MUST! You know your crowd, so select the band/DJ accordingly. This can be a make-or-break situation.

Having the perfect wedding DJ is like having a musical maestro who orchestrates the ultimate dance party. They read the crowd, spin the right beats, and keep the energy high all night long. With seamless transitions and an infectious playlist, they create an electric atmosphere that fills the dance floor. Let them use their skills to read the room and add the games and special dancefloor moments when and where they think it will work - coz these guys know the BEST time for these things!

My Tip: Don't feel like you can't give DJ's direction. They WANT to know your style in music. Don't be shy, tell them all the best and worst of your music taste. And, if your MC is a guest with little or no experience with what an MC should be doing, ask your DJ to make sure they give them some info when it comes to working a microphone!

STYLING & FLOWERS

When your wedding reflects your unique style and vibe, it becomes a true reflection of who you are as a couple. Whether you're into rustic charm, bohemian vibes, or sleek modernity, finding a supplier who gets your vision is key. They become your creative partners, translating your dreams into reality.

From the floral arrangements that make your heart flutter to the little details that make you smile, embrace your quirks, own your style, and let your wedding be an explosion of your awesomeness. It's time to slay - be bold with your choices, you won't regret it!

My Tip: See what you can bundle up with florists/styling. Eg, can your florist provide you with an arbour and not just the flowers for it? Do they do signage or A-frames for the signage? Do they have table decor to save you from hiring another vendor? Also- if you have an arbour, the main floral arrangement on the arbour looks great as a head table centrepiece! You just need to let them know that you want to give it a dual purpose (save your self the \$\$\$ and reuse it for the bridal table!)

CAKES

Oh, let's talk about cake! Choosing the perfect wedding cake is like finding the ultimate sweet treat that completes your love story with a delectable flourish. It's not just a dessert; it's a masterpiece that embodies your tastes, style, and personality. From classic tiered cakes to whimsical creations, the options are endless. Your wedding cake becomes the centrepiece of your reception, capturing everyone's attention as they eagerly await that first delicious bite.

Whether you go for intricate designs, vibrant colours, or unique flavours, it's all about indulging in a slice of pure bliss. Plus, cutting the cake together is a cherished tradition, symbolizing your commitment to share life's sweet moments. So, let your cake be a scrumptious expression of your love and a delight for both the eyes and taste buds. Get ready to have your cake and eat it too, in the most magical way!

My Tip: Kitchen slabs. Not a fancy name, but an epic price saver. You can arrange for your special, stunning, focal point wedding cake to be smaller (and therefore much cheaper) so you have something to cut at that special moment, but the bulk of the cake is in large standard trays that no one can see. It also makes it very easy for the venue to cut and serve.

STATIONERY & SIGNAGE

Choosing stationery and signage for your wedding is like setting the stage and giving your guests a sneak peek into the awesomeness that awaits them. It's all about those little details that make a big impact. From save-the-dates to invitations, and from seating charts to welcome signs, these pieces set the tone and create anticipation for your special day. But it's not just about looking pretty; it's about reflecting your personality and unique love story.

Whether you're going for elegant calligraphy, fun and playful designs, or minimalist chic, selecting stationery that speaks your language is crucial. It's like giving your guests a glimpse into your world and inviting them to be part of your love-filled adventure. So, let your stationery and signage be a reflection of your style, creativity, and excitement. It's time to get the party started even before the first dance!

My Tip: This one is easy! Whatever time you want the ceremony to start, make it 15 mins earlier on the invite. Want to start at 4pm? Then it is 3:45 on the invites. This will help to ensure the guest arrive with plenty of time and don't all arrive when its time to walk down the aisle!

CARS

When it comes to transportation on your wedding day, finding a driver and car hire that adds a touch of glamour while keeping things on schedule is the ultimate win. They become your reliable chariot, whisking you away to each destination with style and grace. It's not just about getting from point A to point B; it's about feeling like a VIP throughout the journey. The right driver understands that punctuality is key, making sure you arrive at each location on time without any stress or delays.

But they also know how to elevate the experience, whether it's a luxurious vintage car or a sleek modern ride that matches your wedding aesthetic. So, buckle up and enjoy the ride, knowing that your trusty driver has got your back. They'll make you feel like royalty, adding that extra touch of glamour to your already fabulous day. Let the wheels roll and the memories unfold as you embark on this unforgettable journey.

My Tip: Have a plan for pick up at the end of the night! Your limo company might include a pick-up service that isn't much more expensive than an uber. Or schedule an uber ahead of time on a phone that is not yours - that way when your uber is there, they are not trying to call you while you are trying to say goodbye. Someone else can flag them down and get them where they need to be to pick you up.

MC'S

The right MC knows how to read the room, adapt their style to your preferences, and keep the spotlight on you while making everyone feel included. They become the voice that reflects your personality, sharing anecdotes and stories that make your wedding uniquely yours.

With a professional MC, you can relax and enjoy the festivities, knowing that someone experienced and dedicated is taking care of the flow and ensuring that your day is a success. So, let your MC be the ultimate host, setting the tone for a day filled with laughter, joy, and unforgettable moments. Sit back, relax, and let them work their magic as your wedding becomes a celebration to remember..

My Tip: Unpopular opinion. If you have hired a DJ that includes an MC service - let them do it! Your mate who is super confident and well-spoken will happily take on the honour, BUT will they stay engaged with the responsibility all night? Do you take some of the fun away for them? Are they good at time keeping and will they be confident enough to talk to the DJ or Venue Staff to ask how the timeline is going?

Also - you have a DJ/MC and you plan on having games or special dances through the night, allow some of these moments to be held at the discretion of the DJ/MC when they feel like they need to reignite the dance-floor.

MAKE-UP & HAIR

It's not about drastic transformations; it's about enhancing your natural beauty, accentuating your unique features, and letting your inner radiance shine through. Your chosen artist should be like a magician, using their brushes and styling tools to unveil the true you. Your hair and makeup should be an artful celebration of your individuality, drawing out your essence and enhancing the beauty that's already there.

So, when you find that magical makeup artist and hair stylist who understands your style and embraces your authenticity, you're not just investing in a glam squad; you're inviting a confidence booster to join your wedding journey.

On your special day, let your hair and makeup be the canvas that paints a picture of YOU, your love, and your genuine beauty. Because when you feel like the best version of yourself, you radiate confidence and glow from the inside out.

My Tip: Don't make a timeline or run sheet of the morning without confirming with your make-up artists or stylist about the time they will need. People really underestimate this amount of time. Also, buy some extra mirrors for around the house that morning.

CEREMONY LOCATIONS/VENUES

Think about it: the right venue should be a reflection of your love story.

Picture yourselves in that space. Does it make your heart skip a beat? Does it whisper sweet nothings about your unique connection? If so, you're on the right track!

Your chosen venue should be more than just a backdrop; it should be a character in your love story. So, when you say "I do," you're not just sealing the deal; you're making memories against a backdrop that says, "This is US!"

In the end, it's not just about where you get married; it's about how that space becomes a part of your forever. So, choose wisely, my fellow lovebirds, and let your venue be the ultimate matchmaker for your happily ever after!

My Tip: Select a venue based on the experience of the service/feeling you get when you go for a tour. This is a reflection of how they will work with you in planning and what your guests will feel on the night. If it is not a vibe right away, NEXT!
